The products manufactured by Gazprom Neft's Ryazan Bituminous Materials Plant won the '100 Best Russian Products' contest. High ratings were given to two innovative and traditional bituminous material product lines: polymer-bitumen binders and viscous petroleum bitumen for road construction.

PETROCHEMISTRY

Gazprom Neft is a major Russian manufacturer of a number of basic petrochemical products – aromatic hydrocarbons (benzene, paraxylene, orthoxylene and toluene) and propane-propylene fraction products (propylene liquefied petroleum gas).

Basic petrochemical products are manufactured at all Gazprom Neft oil refineries (Omsk, Moscow and Yaroslavl). The production of petrochemical products for further stages of added value (polypropylene) takes place at integrated enterprises.
